

Writing sample: 2.1 Human

This is the second topic and therefore a sample for the analysis. It will describe the benefits of reading a book.

Reading is good for learning new things as well as maintaining and improving your vocabulary and knowledge. It can be a relaxing activity, and improve your concentration and attention span. Especially before going to bed, instead of being on your phone, reading a few pages can make you fall asleep better and also benefits the quality of sleep unlike by being on your phone.

Analysis report for the writing sample
